LETTER OF RECOMMENDATION

To Whom It May Concern

The BEIED Professional Marketing Management Program has enriched considerably my knowledge and gave me new attitude towards many aspects of my daily work. . I appreciate very much the time spent with all the lecturers and colleagues from the group. They all were a considerable source of knowledge, experience and inspiration.

To me, however, the most valuable result is that the new, or the remembered old, knowledge I received from this program now gave me a completely new view to my daily business tasks, and also a set of many new tools to solve the problems in a much more professional way.

I would like to mention explicitly the very friendly and pleasant atmosphere which all the lecturers created in the group. This was a truly relaxing and easy way to study after the working day.

I am confident that after completing the BEIED PMM program I have a new stronger professional ground to do my job better and would strongly recommend BEIED programs to all those who have plans for their professional growth.
